

## **“BEAT THE HEAT”**

Lemonade is a lemon- flavored drink sweetened with sugar. It is the most refreshing drink in summer to quench the thirst. Lemonade is usually made from a basic recipe of lemon juice, water and sugar. So keeping this in mind, a wonderful activity of lemonade making was conducted by the young Vivians of Pre School and Pre Primary under the supervision of class teacher to beat the heat of summer. All the kids were very excited and enthusiastically participated in the making of lemonade “A Refreshing Summer Drink”. The tiny tots found the lemonade refreshing and tasty.
