

Visit By The Postman(Nur&Prep)

With an aim to bring real life experiences into the classroom a visit by Postman was organised today at Vivekanand School for Nur and Prep classes. Followed by the visit to the Post Office and making our children aware about its working, a postman's visit added more to their knowledge. They came to know about the working of Indian Postal Service in detail. A Letter Box was placed before them in which they put the messages written on Post Cards for their parents. Our tiny tots were excited to learn that these post cards written by them will reach their home through a Post Man and they all went back home happily waiting for the Post Man to come with their letters.
