

“SAFETY IS AS SIMPLE AS ABC

ALWAYS BE CAREFUL”

Disaster can strike anytime. As the saying goes, “hope for the best and prepare for the worst”. A Mock Drill for earthquake was conducted for Grade IV & V. The students as well as teachers were informed before about the drill and the moment the alarm sounded, students assembled in the ground with discipline and minimum hassle. They were taught in advance not to panic in such a situation. In the ground they were taught about various ways to protect oneself in case of disaster. This drill taught the students how to react in case of any emergencies and help others as well.

“WORLD POST DAY”

Communication means the transmission of messages or information from one person to another. For this, we use different means like emails, letters and many more. Different activities related to Post Card Making were conducted in Grade I to III. In this activity, the students were explained about the importance of Stamp, Postal Index Number and Address which are to be mentioned in the Post Cards. The students also made envelopes and wrote a letter to their dear ones. The students participated in the activity with zest and zeal. They enjoyed the activity a lot.
