

To

sensitize the students towards the Blue Planet, Earth Day is observed globally on 22nd April every year. Earth Day is an outstanding opportunity to focus students' attention on the environment and to vigour their imagination, so that they can act persuasively to help solve environmental problems. On this occasion our little tiny tots of grade Pre-School and Pre-Primary celebrated The Green Colour Day and the little Vivians of Grade Pre- School to III planted saplings in the school garden. Slogan Writing Competition was organized for the Students of grade IV and V in which they showed their innovative skills and gave their imagination wings and wrote slogans on the topic 'Save Earth'. The vivians were further explained by their teachers that it should be our endeavour to keep fresh in their minds the motto that "Earth Day is every day". The day was celebrated with great enthusiasm. Students pledged to keep Mother Earth clean & Green. All in all the students thoroughly enjoyed the activities and carried home with them the message to be more responsible children vowing to take better care of **Mother Earth.**
