

Special Assembly on World Population Day

World Population Day was established by the Governing Council of the United Nations Development Programme to focus public attention on the issue of population growth. Schools, businesses, and organizations around the world are urged to observe July 11 with speeches, programmes, and activities that address population issues and encourage people to think of solutions to the health, social, and economic problems associated with population growth. In view of this, Vivekanand School, Preet Vihars observed the World Population Day with students of Grade V by conducting a special assembly.

The special assembly started with news headlines and 'thought of the day' based on the topic Population Growth. This was followed by a speech on the significance of the day. In an informative speech, the students were given information that why this date is chosen for observing the world population day and names of the most populated countries in the world. This was followed by a poem recited 'Impact of Population'. The highlight of the special assembly was the Skit enacted by the students on the same theme. The skit gave a glimpse of the problems faced by a small family and big family. It was well appreciated by all present as it gave a perspective and a view of what the result could be tomorrow if the size of the family increases.

The assembly was concluded by taking an oath to do a little for the future generations for promoting family planning and a message that 'Small Family is a Happy Family.'
