

Brown Colour Day

One of the most interesting and perhaps the hardest concepts to teach a child is COLOURS. But at the same time they love anything bright and colourful. Brown Colour Day at our school was celebrated by Grade Pre School and Pre Primary on 13th December. Recognising and identifying the brown colour was the main motive behind this celebration.

Children came dressed in brown colour. The day started with an informative and fascinating display of variety of brown colour objects to introduce the colour. What filled the tiny tots with excitement was the making of brown colour paper bag and relishing the chocolate cake. Teachers gave the demo of mixing red and green colour to form brown. The tiny tots had a great learning experience and enjoyed their day.
