

## **“LETS LEARN AND HAVE FUN”**

*Excursion is a fun filled outdoor experience for the little ones. They learn to be independent. Organizing such activities for the tiny tots helps in building their confidence, and making them independent by taking care of their belongings. Keeping this entire thing in view, a visit to National Rail Museum was organized for the Grade Pre-School and Pre-Primary. They enjoyed a lot on the toy train ride; they also enjoyed to see the big engines and trains. This was followed by a lunch sharing party in the park. The kids were very happy and delighted at their visit.*
