

NEWS OF THE DAY

Place Value Blocks

An interesting activity on the topic 'place value' was conducted in II-A played a game "Guess the number" wherein the students were divided into 8 groups and different numbers were written on the colourful chits kept on the table. Students from each group came forward picked up the chit and drew the place value blocks by using the blocks kept on the table and the other group members have to guess the number. Students enjoyed the activity and they actively participated.
