

“BLUE COLOUR DAY”

Tiny tots always have great fun with colours and shapes. In order to make their learning of colours funfilled “BLUE COLOUR DAY” was organised in Pre-School and Pre-Primary. Children came in blue colour attire and did various interesting activities like – sorting of blue colour balls and colouring work. They came to know about different blue colour objects present in their surroundings. Tiny tots were excited throughout the day and were amazed to see different blue colour objects. The activity was a great success as it helped the tiny toddlers to know about different blue colours in a very unusual and motivating way.
