

NEWS OF THE DAY

THINK LAB ACTIVITY-PURE WATER

The children of Grade IV-A conducted an activity to study the process of separating insoluble impurities from water by sedimentation, decantation and filtration.

THINK LAB ACTIVITY-GRABBER

The children of Grade V-A conducted an activity wherein they learnt making a lever (simple machine) which helps to lift objects.

SWINGS FUN

Tiny tots of Pre-School-B enjoyed playing on the swings. All the children were very happy & bubbled with enthusiasm during the swings time.
