

“STORY TELLING COMPETITION”

Stories help to give meaning to context that would otherwise be a collection of forgettable facts. Stories tend to invoke the imagination, taking listeners to unimaginable places. Story Telling Competition help the students to enhance their speaking skills and confidence.

With this, an English Story Telling Competition for Grade I – III was held on 23 July, 2016 in Vivekanand School. All the participants came well prepared with interesting stories with a proper moral conveyed. Students were well dressed and also used props to make the story seem more realistic and effective. The stories narrated by the children were infused with the native flavours of India and some set in Foreign lands which carried the listeners on wings of fancy into the world of imagination. The stories took away the stress and gave children a breather to pursue their imagination and make their day in school a happy experience.
