MAKING VIVEKANAND SCHOOL A SINGLE USE PLASTIC FREE ZONE

As you all know the use of single use plastic is harmful for all kinds of species and environment. Plastic pollution caused due to single use plastic has increased alarming heights and has become a cause of global concern, defacing our beautiful planet and threatening the sustenance of all living beings.

So Vivekanand School has volunteered to reduce the plastic foot prints on the earth by making the school campus a plastic free zone. Little changes really add up to lots. So do your best every day to be conscious with your shopping, consumption and disposal.

MAKING VIVEKANAND SCHOOL A SINGLE USE PLASTIC FREE ZONE

Its time for us to stand united to fight this hazard called plastic pollution.

To achieve this goal school has set certain rules and regulations which has to be followed by all the members of the school.

1. No student or staff member is allowed to bring single use plastic material in the school premises like polybags, disposable plastic bottles, plastic cutlery etc.

2. Two plastic police have been appointed from each section of classes 6th to 8th who will keep a strict vigilance on all the members of the school for not bringing single use plastic.

3. If any one is found with single use plastic, he or she will be issued a warrant by these plastic police.

4. In case any student gets three warrants, he or she will be issued a black card.

5. The member of the plastic police who will issue the maximum number of warrants will be awarded with the title of best police officer.

6. We have also kept blue coloured dustbins on each floor for throwing wrappers of packaged food materials. So lets come together and choose planet over plastic and educate others about plastic waste to make plastic thing of the past.

WHAT CAN WE DO TO MAKE OUR PLANET SINGLE USE PLASTIC FREE ZONE.

- 1. Stop buying bottled water --- Always carry refillable bottle with you whenever you go out. This helps you to go green and stay healthy.**
- 2. Pack the lunch right way --- Don't use disposable plastic cutlery while packing your lunch.**
- 3. Say no to polybags --- Carry your own reusable shopping bags and refuse polythene bags.**
- 4. Say no to cling film --- Use reusable containers with lids instead of covering plates and bowls with cling film.**
- 5. Say no to straws --- These are often used once and are not necessary.**
- 6. Don't buy packaged juice --- Instead of buying juice in plastic bottles, make your own fresh fruit juice.**
- 7. Promise to follow the principle of Refuse, Reduce, Reuse and Recycle to save our mother earth from plastic attack.**
