

## Water Saving Tips For Week 2

**Be Thoughtful** -Close the tap while washing dishes, brushing your teeth and limit or instead use a bucket and mug for bathing .

**Use water to the fullest**- reuse the water left in water bottles for cleaning purposes and washrooms

**Be organized**- collect the water drained from boiled pasta in a vessel and use it for preparing stocks, soups, or even in cooking lentils (daals).

**Spread awareness**- Gardeners should be advised to use sprinklers instead of hose for gardening purposes.

**Be planned**- Gardeners should be asked to make holes in the ground for better penetration of water in the soil.
