AC units installed in all the school transport vehicles

Dear Parent

Namaskar!!

We hope this letter finds you and your family in good health and high spirits. We are writing to you today to inform you about an important development regarding our school transportation system.

We have installed air conditioning units in all of our school transport vehicles to provide a comfortable and safe commuting experience for our students. We understand that many of our students face long commutes to and from school, and we believe that this upgrade will help them stay cool and comfortable during their travels.

While we are excited to provide this improvement to our transportation system, we must also inform you that this upgrade will come at a cost. As such, we will need to increase our transport charges for the upcoming academic year. We understand that this may be an inconvenience for some families, but we assure you that we have done everything we can to keep the increase as minimal as possible.

We appreciate your understanding and support in this matter. As always, our school remains committed to providing the best possible education and facilities for our students, and we believe that this upgrade to our transportation system is an important step towards achieving that goal.

Thank you for your continued trust in our school.

Best regards

Headmistress
