“Celebrate a Green Diwali” – Reel-Making Activity

Dear Students,

Diwali — the festival of lights — reminds us that true joy lies in spreading happiness, kindness, and hope. This year, let's make our celebrations shine brighter by choosing a Green Diwali — one that lights up lives, not the air.

To inspire mindful and eco-friendly celebrations, the school is organizing a Reel-Making Activity for all students.

Activity Guidelines:

- Theme: Celebrate a Green Diwali
- Create a short Instagram-style reel (30–60 seconds) showing how you and your family celebrate Diwali in an eco-friendly way.
- You may showcase ideas such as:
 - Lighting diyas instead of bursting crackers
 - Crafting eco-friendly decorations
 - Sharing sweets, smiles, and joy
 - Donating or spreading light to those in need
 - Planting saplings or reusing materials creatively
 - Your reel should promote positivity, awareness, and love for nature.
- Add your personal touch with music, captions, or voiceovers to make it creative and inspiring.

Submission Details:

- Submit your reel to your class teacher by 18th October 2025.
- Outstanding entries will be featured on the school's official social media handles and appreciated in the morning assembly.

Let's celebrate responsibly, beautifully, and meaningfully.

Let's make this Diwali — green, joyful, and inspiring.

Warm wishes,

Environment Council
