INTRODUCTION OF MATH EXPLORATION CORNER IN CLASS LIBRARY

Dear Parent

Namaste!

We are thrilled to inform you about an exciting new initiative being introduced by the Mathematics Department of our primary wing- Math Explorer's Corner. This project aims to foster a love for problem-solving and independent learning among our students

Highlights of the Initiative:

- A dedicated Math Corner has been set up in each classroom library.
- It contains a curated collection of math enrichment books, puzzles, and practice problems.
- Students who complete their assigned classwork will have the opportunity to explore these resources during class time.
- The goal is to encourage critical thinking, logical reasoning, and self-assessment in a fun and engaging way.

We believe this initiative will not only enhance students' mathematical skills but also nurture a habit of self-directed learning.

We invite you to encourage your child to share their experiences and challenges faced while working in the Math Corner. Your support in making this initiative successful will be highly appreciated.

For any queries or suggestions, please feel free to contact the class teacher.

Warm regards

Mathematics Department
