Technology-Enabled Learning Initiative – Introduction of Tablets for Grades IV & V

Dear Parents,

Namaste!

In keeping with the evolving landscape of education and the growing importance of digital literacy and technology-enabled learning, Vivekanand School is pleased to introduce a new initiative for the students of Grades IV and V, commencing from Term-2.

As part of this initiative, tablets will be integrated into classroom learning to create opportunities for students to learn, explore and practise through engaging digital resources. The initiative will provide students with a purposeful blend of technology and classroom learning, enabling them to:

- **Read and Explore:** Access a wide range of books and digital reading resources to nurture reading habits and broaden their learning experiences.
- **Practise and Reinforce:** Engage with interactive exercises and activities to strengthen concepts taught in the classroom.
- **Participate and Compete:** Students qualifying for the Qualifier Round of Medhakshri and Vocab-O-Champ will participate in the respective competitions using tablets.

This initiative is designed to make learning more interactive, engaging and experiential, while helping students develop confidence in the responsible and purposeful use of technology. It is also a step towards equipping our learners with the digital skills required for a dynamic and technology-driven world.

We look forward to the enthusiastic participation of our students and the continued support and cooperation of our parents as we take this step towards enriching the learning experience at Vivekanand School.

Warm regards

Vivekanand School
