## Empowering Students through Daily Personalized MCQ Practice (Classes IX – XII)

Dear Parents,  
Namaskar!

At Vivekanand School, our unwavering commitment to academic excellence and holistic development continues to guide every initiative we undertake. In alignment with this vision, we are pleased to launch an impactful and forward-thinking programme aimed at enhancing students' performance across all subjects — Daily Personalized MCQ Practice via the School ERP in collaboration with Yoctel software.

MCQs now form an integral part of formative assessments, contributing nearly 25% to the overall weightage. To provide our students with continuous practice, timely feedback, and thorough analysis, we have initiated this series as a part of our regular academic routine.

### Key Features of the Initiative:

#### Subject-Wise MCQ Practice:

Students can access carefully curated, topic-specific MCQs across subjects to reinforce their understanding.

#### Daily Testing Schedule:

MCQs will be made available on designated days, and students are expected to attempt them within the stipulated time through their ERP login.

#### Instant Feedback & Performance Analysis:

Every test comes with detailed insights — scores, ranks, strengths, and areas of improvement — to guide students on their learning path.

#### Remediation Support:

Personalized suggestions and strategies will be provided to help students overcome specific academic challenges.

#### Progress Tracking & Repository:

Students will build a personal repository of MCQs attempted, which can be used for regular revision and exam preparation.

**Skill Building:**

Regular timed practice will sharpen students' time management skills, critical for excelling in board and competitive exams.

**Integration with Internal Assessments:**

The performance in these daily MCQ tests will form a significant part of the internal assessment for formative exams. To ensure transparency and focused tracking, a dedicated MCQ Performance Report Card will be issued alongside regular academic evaluations, highlighting each student's progress, consistency, and subject-wise proficiency.

We request you to motivate and support your ward in utilizing this powerful learning tool consistently and sincerely. With regular practice and structured analysis, students will gain the confidence and competence to achieve academic excellence.

Note: The Yoctel MCQ fee for April will be adjusted in the next quarter.

For any queries or assistance, please reach out to the respective class teacher.

Warm Regards

Principal Officiating
