Go Sharpener Project

Dear Parent,

Namaskar!

'True happiness lies in experiencing the joy of giving.'

In order to help children realize this ultimate joy through their contribution to the environment and Mother Earth, we joyously would like to share a portal- '**Go Sharpener**', participation in which would truly help to maximize the potential and awaken the sense of responsibilities among the student fraternity. This initiative will loop up the chain of what the "World Needs, Students Desire and Parents Want", in a fun filled and rewarding format.

It will also act as a force to provide a platform to students to contribute constructively towards Global Missions. We urge students to display whole hearted participation towards making the world a better place to live in.

This programme is primarily designed for the school students, wherein, they are able to create student impact profiles and win rewards for the same.

Subscription Fee:

- Free for the students who will only visit the portal and keep a track of what content is getting posted.
- INR 100/- per year only for those who want their posts to get evaluated by the respective experts and get certified by them.

So let's all stand together to beautify and maintain the glory of our ever giving Mother Earth.

Looking forward to an overwhelming participation and contribution towards this noble and Global mission.

Regards

Poonam Sharma

(Principal Officiating)
