Policy on Morning Sports Practice and Event Participation (IX to XII)

Dear Parents,
Namaskar!!

As we approach the Half-Yearly Examinations, we remain committed to fostering a healthy balance between academics and extracurricular activities for our students. To ensure that every child prioritizes academic excellence while continuing to benefit from sports and other school events, we would like to bring the following policy to your attention:

1. Eligibility for Morning Sports Practice:

Any student who fails in even one subject in the Term 1 (Half-Yearly) Examinations will not be permitted to attend morning sports practice.

Students identified with learning disabilities are exempt from this restriction.

Students who have been debarred may regain eligibility by securing 33% or above in all subjects in the next examination cycle.

2. Participation in Events and Competitions:

Students under suspension or those who do not meet the required academic standards will not be allowed to participate in any school events or represent the school in Zonal or District-level competitions.

We are sharing this policy in advance so that you may guide and support your ward in maintaining consistent academic performance. Your cooperation in helping students strike the right balance between their academic responsibilities and extracurricular interests is greatly appreciated.

Poonam Sharma
Principal (Officiating)
