Post Half-Yearly Remedial Support Programme – Class X

Dear Parent,

Namaskar!

At Vivekanand School, we firmly believe that every student possesses the potential to excel when provided with timely guidance, consistent support, and focused academic intervention. In keeping with our commitment to nurturing the holistic growth of every learner, the school continuously introduces measures that strengthen students' academic foundation and prepare them for future success.

In continuation of this endeavour, the school will commence a Post Half-Yearly Remedial Support Programme for the students of Class X. The programme will be conducted after school hours and will be subject-specific for students who secure less than 40% marks in any subject in the Half-Yearly Examination.

The objective of these classes is to identify learning gaps at an early stage, reinforce conceptual understanding, and provide structured academic support so that every student is able to improve performance with confidence before the Board Examinations.

Parents are requested to partner with the school by motivating their ward to maintain regular study habits, complete all assigned work diligently, and prepare sincerely for the Half-Yearly Examination. We encourage every student to strive for a minimum score of 40% in each subject, thereby avoiding the need for remedial intervention and remaining on track academically.

The detailed schedule, commencement date, and operational guidelines for the remedial classes will be communicated separately after the declaration of the Half-Yearly Examination results.

Your continued cooperation and encouragement are invaluable in helping our students achieve academic excellence.

Warm Regards,

Principal (Officiating)
