Circular for class XI (2025-26) - Science Stream

Dear Parent,

Greetings from Vivekanand School.

We are pleased to welcome your ward to Class XI and look forward to a successful academic journey ahead.

In view of the academic rigor and the demands of competitive exam preparation associated with the Science stream, the school has revised the timings for Class XI Science students to better support their study schedule.

Effective from the first day of the session – Monday, 15th April 2025, the school timings for Class XI Science will be 7:15 a.m. to 12:30 p.m. This adjustment is intended to provide students with additional time for self-study and external academic support.

Please note:

Students who would be availing the school transport will be required to remain in school until 1:20 p.m. and will depart along with all other students.

Students commuting by private transport or on foot may leave at 12:30 p.m.

Students of the Commerce and Humanities stream will follow the regular school timings of 7:15 a.m. to 1:20 p.m.

We are confident that this arrangement will contribute positively to your ward's academic focus and overall well-being. Should you have any questions, please feel free to connect with us.

Warm regards,

Poonam Sharma
Principal (Officiating)
