Use of Transparent Water Bottles

Dear Parents,

Namaste!

As part of the school's continuing efforts to strengthen discipline, monitoring and responsible practices on campus, it has been decided that, with immediate effect, students of Classes IX to XII will be permitted to carry only transparent water bottles to school.

Parents are requested to ensure that their ward carries a clear, transparent water bottle to school each day. Opaque, coloured or non-transparent bottles will not be permitted on the school premises.

The school provides an uninterrupted supply of safe drinking water through water coolers installed across the campus. Students may refill their bottles whenever required during the school day.

This measure is being introduced to strengthen monitoring practices on the school campus and to ensure that water bottles are used solely for their intended purpose. We seek the cooperation of parents in ensuring strict compliance with the same.

Any non-transparent water bottle brought to school will be confiscated and will not be returned.

We appreciate your understanding and cooperation in helping the school maintain a disciplined, responsible and secure campus environment.

Warm regards,
Principal (Officiating)
