Withdrawal of Transparent Water Bottle Requirement & Reinforcement of Safety Measures

Dear Parents,

Namaskar!

This is with reference to Circular No. VS/SW/2026-27/Cir-063 dated 30 July 2026 regarding the use of transparent water bottles for students of Classes IX to XII.

The requirement of transparent water bottles was introduced as a precautionary measure in response to a serious breach of school discipline involving the misuse of water bottles to carry a prohibited substance onto the school campus. The measure was intended solely to strengthen student safety and prevent the recurrence of any such incident.

After carefully reviewing the feedback received from a few parents and considering the practical concerns expressed, the school has decided to withdraw the requirement of carrying only transparent water bottles with immediate effect.

The withdrawal of this particular measure should, however, not be construed as any relaxation in the school's approach towards student safety and discipline. The underlying prohibition remains absolute, and the school shall continue to maintain strict vigilance against any such misconduct.

Parents are requested to ensure that their ward does not bring, possess or consume any alcoholic beverage within the school premises, in school transport or during any school-organised activity. Any such conduct constitutes gross misconduct and shall be viewed with the utmost severity.

To ensure a safe and secure learning environment for all students, the school may conduct random checks of students and their belongings, including school bags and water bottles, whenever considered necessary.

If any student is found bringing or possessing an alcoholic beverage, whether concealed in a water bottle or in any other container, such an act shall invite the strictest disciplinary action, which may include expulsion from the school, in accordance with the applicable rules.

Students are also expected to immediately inform the school authorities if they become aware of any such violation. Any student found to have knowingly concealed, facilitated or assisted in concealing such misconduct shall also be liable for strict disciplinary action.

Parents are requested to counsel their ward regarding the seriousness of this advisory and to extend their wholehearted cooperation in upholding the values of discipline, responsibility and safety that the school stands for.

The school sincerely appreciates your continued support and partnership in ensuring a safe, secure and disciplined environment for every child.

Warm regards,

Principal (Officiating)
